Check the appropriate box below if the Form 8-K filing is intended to simultaneously satisfy the filing obligation of the registrant under any of the following provisions (see General Instruction A.2. below):

- Written communications pursuant to Rule 425 under the Securities Act (17 CFR 230.425)
- Soliciting material pursuant to Rule 14a-12 under the Exchange Act (17 CFR 240.14a-12)
- Pre-commencement communications pursuant to Rule 14d-2(b) under the Exchange Act (17 CFR 240.14d-2(b))
- Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

Securities registered pursuant to Section 12(b) of the Act:

<u>Title of each class</u>	<u>Trading Symbol(s)</u>	<u>Name of exchange on which registered</u>
Class A Common Stock, par value \$0.0001 per share	FRVO	The NASDAQ Stock Market LLC (Nasdaq Global Select Market)

Indicate by check mark whether the registrant is an emerging growth company as defined in Rule 405 of the Securities Act of 1933 (§230.405 of this chapter) or Rule 12b-2 of the Securities Exchange Act of 1934 (§240.12b-2 of this chapter).

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Item 5.02 Departure of Directors or Certain Officers; Election of Directors; Appointment of Certain Officers; Compensatory Arrangements of Certain Officers.

On June 10, 2026, the Board of Directors (the “Board”) of Fervo Energy Company (the “Company”) appointed Sarah Jewett as Chief Operating Officer of the Company, effective June 15, 2026.

Ms. Jewett, age 36, has led the Company's Strategy department since she joined Fervo in 2020, within roles of increasing responsibility. She had been SVP, Strategy since October, 2025. In that role, Ms. Jewett managed the integration of policy, communications, strategy, and people operations to drive the Company's growth. Prior to joining the Company, Ms. Jewett held leadership roles in corporate development at Select Energy Services and worked as an engineer at Schlumberger. Ms. Jewett holds a Bachelor of Arts in Engineering Sciences and Studio Art and a Bachelor of Engineering in Mechanical Engineering from Dartmouth College and a Master of Business Administration from Harvard Business School.

In connection with her appointment, Ms. Jewett is entitled to receive an annual base salary of \$400,000 and will be eligible to earn an annual performance-based cash bonus with a target of 55% of her base salary, pursuant to the Company's annual incentive bonus plan. In addition, Ms. Jewett was granted 29,629 restricted stock units under the Company's 2026 Incentive Award Plan. The RSUs vest over four years, with 25% on the first anniversary of the grant date and the remainder in equal quarterly installments thereafter, subject to Ms. Jewett's continued employment with the Company.

There are no family relationships between Ms. Jewett and any director or executive officer of the Company, and there are no arrangements or understandings between Ms. Jewett and any other persons pursuant to which she was appointed as Chief Operating Officer. Ms. Jewett does not have any direct or indirect material interest in any transaction required to be disclosed pursuant to Item 404(a) of Regulation S-K.

Item 9.01 Financial Statements and Exhibits.

(d) Exhibits:

Exhibit No.	Exhibit Description
99.1	<u>Press Release naming Sarah Jewett Chief Operating Officer, dated June 10, 2026.</u>

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.

Fervo Energy Names Sarah Jewett Chief Operating Officer as Geothermal Build-Out Accelerates

New COO role centralizes key business functions to help the company scale with greater speed, discipline, and confidence

HOUSTON, TX (June 10, 2026) – Fervo Energy (Nasdaq: FRVO), the global pioneer of next-generation geothermal energy, today announced the promotion of Sarah Jewett to Chief Operating Officer (COO). With the appointment, Jewett takes leadership of the company’s core corporate operations, creating the centralized infrastructure required to execute on what the company believes is the most significant commercial opportunity for clean, firm power in history. Her promotion follows six years of foundational leadership at Fervo where she has led some of the company’s most critical workstreams.

“What Sarah has built over the last six years has been foundational to the company’s success. From the time she joined, she has brought an unwavering people-first mindset and outstanding dedication to building things that last,” said Tim Latimer, CEO and Co-Founder of Fervo Energy. “As we move into the next phase of our growth, there is no better person to lead the operating core of this company.”

Jewett brings a wealth of unique experiences to the COO role. She spent her twenties running hydraulic fracturing crews for Schlumberger across some of the most demanding operating environments in the United States. Working within remote basins in the Western U.S., the high activity Permian, and the logistically and technically complex North Slope in Alaska, she logged direct experience managing wellsites, equipment and material logistics, and field crews that has been essential to her strategic capabilities at Fervo. Her ability to translate between technical concepts and strategic decision making has been a meaningful asset during her tenure.

Prior to joining Fervo in 2020 to lead the strategy department, Jewett worked in corporate development and strategic initiatives for Select Energy Services. She holds an M.B.A. from Harvard Business School and a Bachelor of Engineering in Mechanical Engineering from Dartmouth College.

Jewett’s promotion comes as Fervo accelerates the commercial deployment of its GeoBlock™ and GeoCluster™ standardized EGS development model. This approach, the company believes, can drive geothermal down the same cost curve that manufacturing-driven standardization enabled for solar PV. With a growing project pipeline spanning utility offtake, AI hyperscaler demand, and industrial power applications, the scale of coordination required across supply chain, land, permitting, policy, and people has reached a threshold that demands unified and thoughtful leadership. This is the mandate that Jewett now carries.

About Fervo Energy

Fervo Energy is a modern power company built around one of the market's most important needs: affordable, dependable new power supply. Through the large-scale deployment of enhanced geothermal systems, Fervo has established a repeatable, industrial approach to building utility-scale power. The company is transforming geothermal into a clean, reliable, cost-competitive solution designed to meet rising demand from AI hyperscalers, utilities, and a more electricity-intensive economy.
